SUMMARY

Web developer with 7+ years of experience with some experience in mobile app development. I excel at creating responsive and user-friendly web applications, writing a clean code, optimizing application performance and collaborating with cross-functional teams. I am a self-motivated learner with a passion for staying up to date with the latest web technologies and industry trends.

EXPERIENCE

Front-End Developer

Cybersolution Technologies   **December 2018 - Present, Johor Bahru, Johor**

• Involved mainly in front-end development of government web applications based on projects each delivered by phase.
• Also involved in ad hoc backend changes that require to modify, fix or create APIs.
• Create working prototypes that users can interact and test before initializing development.
• Communicate with users to identify their needs, ensuring that solutions delivered met their requirement.
• Become the go-to person in the company for React applications and frontend development.
• Develop, test, plan and cooperate internally with team members in making sure the overall flow of the system meets the user needs.

Web Developer

GarGeon   **May 2018 - November 2018, Johor Bahru, Johor**

• A part of the leading team that decides the whole architecture of the company product.
• Involved in full-stack development of web and mobile application that attempt to tackle the problems in the waste industry.
• Directly collaborated with the founders and CEO ensuring that the project aligned with business goals and user needs.

Programmer

Zanko   **September 2016 - February 2018, Johor Bahru, Johor**

• Contribute in designing the UI of web application from scratch and create UI prototypes for the purpose of collecting user requirements.
• Assist in creating controllers and SQL queries that control the type of data that need to be displayed.
• Work with the team in ensuring that the system solution meets the user's needs and expectations.

Front-End Web Developer

Misa Travel   **November 2015 - August 2016, Johor Bahru, Johor**

• Participated in the development of Kiasu Perks, a mobile app that let users enjoy discounts and deals around the world.
• Tasked in the creation of the administrator web application dashboard where I designed the interface and integrate the front-end with the APIs given.
• Assisted in the creation of the mobile app's landing page and the mobile UI.
